

TECHMART ELECTRONICS PRODUCT CATALOG 2026

Version 1.0

Effective Date: January 1, 2026

About TechMart Electronics

TechMart Electronics is a fictional global consumer electronics company dedicated to designing, manufacturing, and supporting innovative technology products for homes, businesses, educational institutions, and gaming enthusiasts. Established with the mission of making advanced technology accessible to everyone, TechMart focuses on combining reliability, performance, affordability, and excellent customer service into every product it delivers.

The company's product portfolio includes laptops, smartphones, tablets, wearable technology, audio devices, smart home products, and a comprehensive range of electronic accessories. Every product is developed to meet modern consumer expectations while maintaining strict quality standards throughout the manufacturing and testing process.

TechMart Electronics believes that purchasing a device is only the beginning of the customer journey. To ensure long-term customer satisfaction, the company provides warranty services, technical support, repair programs, software updates, and product registration services through authorized service centers and digital support channels.

This Product Catalog serves as the official reference guide for all currently available TechMart products. The information contained in this document is referenced by other company documents including the Warranty Policy, Shipping Policy, Returns & Refund Policy, Product Registration Guide, Extended Warranty Guide, and Customer Support Handbook.

Product Categories

TechMart Electronics currently offers products in the following categories:

- Laptop Computers
- Smartphones
- Tablets
- Smartwatches
- Audio Products
- Computer Accessories
- Smart Home Devices

Each category has been designed to meet the requirements of different customer groups, ranging from students and home users to business professionals and gaming enthusiasts.

Laptop Series

TechMart's laptop lineup is engineered to provide reliable performance across a variety of computing needs. Whether customers require lightweight portability for daily productivity or high-performance hardware for gaming and professional applications, TechMart offers solutions tailored to those requirements.

All laptops undergo extensive quality assurance testing before shipment. Tests include keyboard durability, hinge reliability, battery performance, thermal management, display quality, storage integrity, wireless connectivity, and operating system validation.

Standard laptop packages include the laptop computer, power adapter, charging cable, user guide, warranty documentation, and recovery instructions where applicable.

AeroBook 14

The TechMart AeroBook 14 is an ultrabook designed primarily for students, office professionals, remote workers, and everyday home users. Its lightweight construction and compact design make it an ideal companion for travel, educational environments, and hybrid workplaces.

The AeroBook 14 features a premium aluminum chassis that balances durability with portability. The 14-inch Full HD IPS display delivers sharp visuals with wide viewing angles, making it suitable for document editing, online meetings, multimedia consumption, and web browsing.

Powered by the Intel Core i5 processor and equipped with 16 GB DDR5 memory, the AeroBook 14 delivers responsive multitasking performance for productivity applications, cloud-based software, and light creative workloads.

The included 512 GB NVMe solid-state drive provides fast system boot times, quick application launches, and ample storage capacity for documents, presentations, media files, and software installations.

Wireless connectivity includes Wi-Fi 6 and Bluetooth 5.3, allowing stable connections with modern routers and wireless peripherals. Multiple USB ports, HDMI output, and USB-C connectivity ensure compatibility with external displays and accessories.

Battery optimization software enables the AeroBook 14 to provide up to ten hours of typical office usage under standard operating conditions. Actual battery performance varies depending on workload, screen brightness, installed applications, and wireless usage.

Key Features

- Intel Core i5 Processor

- 16 GB DDR5 RAM
- 512 GB NVMe SSD
- Intel Iris Xe Graphics
- 14-inch Full HD IPS Display
- Wi-Fi 6
- Bluetooth 5.3
- Fingerprint Authentication
- HD Webcam
- USB-C Charging Support

Intended Users

The AeroBook 14 is recommended for:

- University students
- Office professionals
- Teachers
- Business travelers
- Home users
- Remote employees

Package Contents

- AeroBook 14 Laptop
- 65W USB-C Charger
- Power Cable
- User Manual
- Warranty Card
- Quick Start Guide

Standard Warranty

Every AeroBook 14 includes a 24-month limited manufacturer's warranty covering manufacturing defects under normal operating conditions.

AeroBook Pro 15

The AeroBook Pro 15 is TechMart's premium productivity laptop developed for professionals requiring higher processing performance, expanded multitasking capabilities, and enhanced display quality.

Its 15.6-inch QHD display provides greater screen real estate, making it particularly suitable for software development, digital content creation, business analytics, engineering applications, and professional productivity.

Powered by the Intel Core i7 processor, 32 GB DDR5 memory, and a 1 TB NVMe SSD, the AeroBook Pro 15 offers exceptional responsiveness when running multiple applications simultaneously. The upgraded cooling system ensures sustained performance during extended workloads while minimizing system noise.

Security features include TPM support, fingerprint authentication, webcam privacy shutter, secure boot functionality, and BIOS password protection, making the device suitable for enterprise deployments.

The AeroBook Pro 15 also supports high-speed Thunderbolt connectivity, allowing users to connect external graphics enclosures, high-resolution monitors, docking stations, and ultra-fast storage devices.

Titan Gaming G15

The TechMart Titan Gaming G15 has been developed specifically for gamers, content creators, engineering students, and professionals who require high-performance computing. Built with powerful internal hardware and an advanced cooling system, the Titan Gaming G15 is capable of handling demanding applications including modern video games, 3D rendering software, video editing suites, virtual machines, and engineering simulations.

The laptop features a 15.6-inch Full HD display with a high refresh rate of 165 Hz, providing smooth visuals and reduced motion blur during gaming and fast-paced multimedia applications. The IPS display panel delivers vibrant colors and wide viewing angles suitable for entertainment and professional creative work.

The Titan Gaming G15 is powered by the latest Intel Core i7 processor paired with an NVIDIA RTX-series dedicated graphics processor. This combination provides exceptional performance for graphics-intensive tasks and allows users to experience modern games with high-quality visual settings.

A dual-fan cooling system combined with multiple heat pipes efficiently dissipates heat during prolonged gaming sessions. Intelligent thermal management software automatically adjusts fan speeds according to workload, balancing performance and noise levels.

The system includes 32 GB DDR5 memory and a 1 TB NVMe SSD, allowing rapid game loading, quick file transfers, and efficient multitasking. Users may expand both memory and storage according to the upgrade specifications provided in the user manual.

Key Features

- Intel Core i7 Processor
- NVIDIA RTX Dedicated Graphics
- 32 GB DDR5 RAM
- 1 TB NVMe SSD
- 15.6-inch Full HD 165 Hz Display
- RGB Backlit Keyboard
- Advanced Dual-Fan Cooling
- Wi-Fi 6E
- Bluetooth 5.3
- Gigabit Ethernet Port

Recommended Users

- Competitive gamers
- Streamers
- Video editors
- Graphic designers
- Engineering students
- Software developers

Package Contents

- Titan Gaming G15 Laptop
- 180W Power Adapter
- Power Cable
- User Manual
- Warranty Card
- Quick Setup Guide

Standard Warranty

The Titan Gaming G15 includes a 24-month limited manufacturer's warranty covering hardware defects under normal operating conditions.

Titan Gaming G17

The Titan Gaming G17 represents TechMart's flagship gaming laptop designed for enthusiasts who demand maximum performance. It features a larger 17.3-inch display,

enhanced thermal design, upgraded graphics options, and additional storage expansion capabilities.

The larger display provides an immersive gaming experience while offering additional workspace for professional applications such as video production, CAD software, and large spreadsheet analysis.

Its premium chassis incorporates reinforced hinges, improved airflow channels, and durable construction designed for frequent transport between home, office, tournaments, and educational institutions.

The Titan Gaming G17 also supports multiple external displays through HDMI and USB-C ports, making it suitable for professional workstations and gaming setups.

Key Features

- Intel Core i9 Processor
- NVIDIA RTX High-End Graphics
- 32 GB DDR5 RAM
- 2 TB NVMe SSD
- 17.3-inch QHD 240 Hz Display
- Mechanical RGB Keyboard
- Advanced Cooling Architecture
- Thunderbolt Support
- Wi-Fi 6E
- Bluetooth 5.3

Standard Warranty

The Titan Gaming G17 includes a 24-month manufacturer's warranty and is eligible for TechMart Extended Warranty Plans.

BusinessBook B14

The BusinessBook B14 has been engineered specifically for enterprise customers, government organizations, educational institutions, and professionals who prioritize security, reliability, and long-term durability.

Unlike consumer-oriented laptops, the BusinessBook B14 emphasizes stability and security over gaming performance. It includes enterprise-grade BIOS protection, TPM encryption, secure boot capabilities, fingerprint authentication, and webcam privacy controls.

The lightweight design allows professionals to comfortably carry the device throughout the workday while maintaining excellent battery life exceeding twelve hours under standard office workloads.

The keyboard has been tested for millions of keystrokes, making it ideal for users who spend significant time creating documents, reports, presentations, and spreadsheets.

Business customers can also purchase optional accidental damage protection and priority repair services through authorized TechMart service centers.

Key Features

- Intel Core i7 Processor
- 16 GB DDR5 Memory
- 512 GB NVMe SSD
- Enterprise Security Features
- 14-inch Full HD Anti-Glare Display
- Fingerprint Authentication
- TPM Security Module
- HD Webcam with Privacy Shutter
- Wi-Fi 6

Standard Warranty

The BusinessBook B14 includes a **36-month limited manufacturer's warranty**, the longest standard warranty offered within the TechMart laptop portfolio.

Laptop Comparison

Model	Intended Users	Warranty	Storage
AeroBook 14	Students & Professionals	24 Months	512 GB SSD
AeroBook Pro 15	Professionals	24 Months	1 TB SSD
Titan Gaming G15	Gamers	24 Months	1 TB SSD
Titan Gaming G17	Enthusiasts	24 Months	2 TB SSD
BusinessBook B14	Enterprise Users	36 Months	512 GB SSD

Recommended Laptop Accessories

TechMart recommends the following accessories to enhance the productivity and longevity of laptop devices:

- 65W Fast Charger
- 100W GaN Charger
- USB-C Dock
- Wireless Mouse
- Mechanical Keyboard K1
- Laptop Sleeve
- USB-C Cable

Using genuine TechMart accessories helps ensure compatibility, safety, and optimal charging performance. Third-party accessories that do not meet required electrical specifications may reduce charging efficiency or negatively affect device performance.

Laptop Care Guidelines

Customers are encouraged to keep laptop ventilation openings unobstructed during operation to maintain efficient cooling. Liquids, excessive dust, and extreme temperatures should be avoided as they may adversely affect hardware performance.

Operating system updates and firmware updates released by TechMart should be installed promptly to improve security, compatibility, and system stability. Customers should regularly back up important data using cloud storage or external storage devices to minimize data loss in the event of hardware failure.

When transporting a laptop, a padded carrying case or sleeve should be used to protect the device from accidental impacts and scratches.

Frequently Asked Questions – Laptops

Can I upgrade the memory after purchase?

Certain laptop models support memory upgrades. Customers should consult the user manual or contact TechMart Customer Support for model-specific upgrade information.

Does opening the laptop void the warranty?

Opening the device for approved upgrades does not automatically void the warranty. However, damage caused during unauthorized repairs or modifications is not covered under the standard warranty.

Are chargers interchangeable?

Only compatible TechMart chargers with the correct voltage and power rating should be used. Using incompatible chargers may affect charging performance and could damage the device.

Can I purchase an extended warranty?

Yes. Most laptop models are eligible for TechMart Extended Warranty Plans within the specified registration period after purchase.

Smartphone Series

The TechMart Nova Series has been designed to provide dependable performance, advanced camera technology, long battery life, and seamless connectivity for customers with varying budgets and usage requirements. Every smartphone is developed to deliver a balanced combination of hardware performance, software optimization, and durability.

All Nova Series smartphones operate on the latest version of the TechMart Mobile OS, based on Android, and receive regular software and security updates. Devices are tested for display quality, battery efficiency, camera performance, wireless connectivity, and charging safety before being released to the market.

Each smartphone package includes the handset, USB-C charging cable, SIM ejector tool, quick start guide, warranty documentation, and safety instructions. Charging adapters may be sold separately depending on regional environmental regulations.

Nova X

The TechMart Nova X is an affordable mid-range smartphone intended for students, families, and everyday users. It provides reliable performance for web browsing, social media, video streaming, online learning, and communication.

Its 6.5-inch Full HD display offers vibrant colors and good outdoor visibility, making it suitable for daily multimedia consumption. Powered by an efficient octa-core processor with 8 GB of RAM, the Nova X delivers smooth multitasking for commonly used applications.

The device includes a 128 GB internal storage capacity, expandable via a microSD card, allowing customers to store photos, videos, documents, and applications without worrying about space limitations.

A 5000 mAh battery supports all-day usage under typical operating conditions and features fast charging through the USB-C port.

Key Features

- 6.5-inch Full HD Display
- Octa-Core Processor
- 8 GB RAM

- 128 GB Internal Storage
- Expandable Storage
- 50 MP Dual Camera System
- 16 MP Front Camera
- 5000 mAh Battery
- Fingerprint Sensor
- Face Unlock
- 5G Connectivity

Intended Users

- Students
- Everyday smartphone users
- First-time smartphone buyers
- Families

Standard Warranty

The Nova X includes a 12-month limited manufacturer's warranty covering manufacturing defects under normal usage conditions.

Nova Pro

The Nova Pro is designed for professionals and technology enthusiasts who require additional performance, enhanced photography capabilities, and improved display quality.

Its 6.7-inch AMOLED display delivers excellent color accuracy, deep contrast, and smooth scrolling through a 120 Hz refresh rate. This makes the device suitable for content consumption, productivity applications, and gaming.

Powered by a flagship-class processor paired with 12 GB RAM and 256 GB storage, the Nova Pro handles demanding applications with ease while maintaining energy efficiency.

The triple-camera system includes advanced night photography, optical image stabilization, AI scene recognition, and 4K video recording.

Key Features

- 6.7-inch AMOLED Display
- 120 Hz Refresh Rate
- Flagship Processor
- 12 GB RAM

- 256 GB Storage
- Triple Camera System
- Optical Image Stabilization
- AI Photography
- Fast Charging
- Wireless Charging
- IP68 Water and Dust Resistance

Standard Warranty

The Nova Pro is covered by a 12-month limited manufacturer's warranty and qualifies for TechMart Extended Protection Plans.

Nova Ultra

The Nova Ultra represents the highest level of smartphone technology offered by TechMart Electronics. Designed for professionals, creators, photographers, and power users, the Nova Ultra combines premium hardware with advanced software features.

Its 6.8-inch Dynamic AMOLED display supports adaptive refresh rates up to 144 Hz, delivering exceptionally smooth visuals while intelligently reducing power consumption during less demanding tasks.

The flagship chipset, 16 GB RAM, and 512 GB internal storage ensure exceptional multitasking, gaming performance, and responsiveness. Professional users can edit high-resolution photos, process videos, and manage large files directly from the device.

The advanced camera system includes multiple high-resolution sensors with optical zoom, ultra-wide photography, macro capabilities, AI-enhanced image processing, and professional video recording features.

Key Features

- 6.8-inch Dynamic AMOLED Display
- Adaptive 144 Hz Refresh Rate
- Flagship Processor
- 16 GB RAM
- 512 GB Storage
- Professional Quad Camera System
- Optical Zoom
- AI Image Enhancement

- 8K Video Recording
- Wireless Charging
- Reverse Wireless Charging
- IP68 Certification

Standard Warranty

The Nova Ultra includes a 12-month manufacturer's warranty and supports all TechMart Premium Care services.

Smartphone Comparison

Model	RAM	Storage	Warranty
Nova X	8 GB	128 GB	12 Months
Nova Pro	12 GB	256 GB	12 Months
Nova Ultra	16 GB	512 GB	12 Months

Tablet Series

TechMart tablets are designed for education, entertainment, professional work, and digital creativity. The lightweight design, long battery life, and large touch displays make them suitable for users who require greater portability than traditional laptops.

Tab Lite 10

The Tab Lite 10 is intended for students, casual users, and families. Its 10-inch Full HD display provides a comfortable viewing experience for online classes, reading, web browsing, and streaming.

The tablet includes stereo speakers, parental controls, expandable storage, and long battery life to support everyday educational and entertainment activities.

Key Features

- 10-inch Full HD Display
- Octa-Core Processor
- 6 GB RAM
- 128 GB Storage
- Expandable Storage

- USB-C Charging
- Stereo Speakers
- 7000 mAh Battery

Warranty

12-Month Limited Warranty.

Tab Pro 12

The Tab Pro 12 has been developed for professionals, artists, and business users who require a larger display and greater computing capabilities.

Its 12.4-inch high-resolution display supports stylus input, making it ideal for digital note-taking, graphic design, engineering sketches, presentations, and creative workflows.

Key Features

- 12.4-inch High Resolution Display
- Stylus Support
- 12 GB RAM
- 256 GB Storage
- Multi-Window Productivity
- Face Recognition
- Fast Charging

Warranty

12-Month Limited Warranty.

Tablet Comparison

Model	Display	RAM	Warranty
Tab Lite 10	10-inch	6 GB	12 Months
Tab Pro 12	12.4-inch	12 GB	12 Months

Smartwatch Series

The TechMart Pulse Series combines modern wearable technology with health monitoring, fitness tracking, and smart connectivity features. Designed for both fitness enthusiasts and everyday users, Pulse smartwatches provide reliable performance while integrating seamlessly with TechMart smartphones and other Android and iOS devices.

Each smartwatch undergoes extensive testing for display durability, battery life, wireless connectivity, sensor accuracy, and water resistance before being released to customers. Software updates are delivered periodically to introduce new features, improve security, and optimize battery performance.

Every smartwatch package includes the watch, magnetic charging cable, user manual, warranty documentation, and quick start guide.

Pulse Fit

The Pulse Fit is designed for users beginning their fitness journey or those seeking an affordable smartwatch for everyday activity tracking.

The device includes heart rate monitoring, step counting, sleep tracking, calorie estimation, hydration reminders, sedentary alerts, and notification synchronization with compatible smartphones.

Its lightweight design ensures comfortable all-day wear, while the long-lasting battery provides up to ten days of typical use on a single charge.

Key Features

- 1.7-inch HD Display
- Heart Rate Monitoring
- Sleep Tracking
- Step Counter
- Calorie Tracking
- Blood Oxygen Monitoring
- Water Resistant Design
- Bluetooth Connectivity
- Up to 10 Days Battery Life

Standard Warranty

12-Month Limited Manufacturer Warranty.

Pulse Pro

The Pulse Pro expands upon the features of the Pulse Fit by adding built-in GPS, advanced fitness metrics, stress monitoring, voice assistant compatibility, and premium construction materials.

Designed for athletes, professionals, and active individuals, the Pulse Pro automatically detects multiple exercise modes and provides detailed workout reports through the TechMart Health application.

Key Features

- 1.9-inch AMOLED Display
- Built-in GPS
- ECG Monitoring
- Blood Oxygen Monitoring
- Stress Tracking
- Sleep Analysis
- Bluetooth Calling
- Voice Assistant Support
- Up to 14 Days Battery Life

Standard Warranty

12-Month Limited Manufacturer Warranty.

Audio Products

TechMart's audio product range is engineered to provide immersive sound quality, reliable wireless connectivity, and long-lasting battery performance. Every audio device is tested for frequency response, microphone quality, Bluetooth stability, charging safety, and durability before shipment.

AirBuds Lite

The AirBuds Lite are true wireless earbuds designed for everyday communication, music streaming, online meetings, and multimedia entertainment.

The compact charging case provides multiple additional charging cycles, ensuring uninterrupted listening throughout the day.

Key Features

- Bluetooth 5.3
- USB-C Charging
- Touch Controls
- Dual Microphones

- Voice Assistant Support
- Up to 24 Hours Total Battery Life

Warranty

12-Month Limited Warranty.

AirBuds Pro

The AirBuds Pro provide premium sound quality with Active Noise Cancellation (ANC), Transparency Mode, adaptive equalization, and enhanced microphone performance for professional communication.

The earbuds automatically switch between connected TechMart devices, improving productivity for users operating within the TechMart ecosystem.

Key Features

- Active Noise Cancellation
- Transparency Mode
- Hi-Resolution Audio
- Wireless Charging Case
- Bluetooth 5.3
- Multipoint Connectivity
- Adaptive Equalizer

Warranty

12-Month Limited Warranty.

SoundMax 50 Bluetooth Speaker

The SoundMax 50 portable speaker delivers powerful stereo audio suitable for indoor and outdoor entertainment.

Its rugged construction includes splash resistance, extended battery life, and support for stereo pairing with compatible TechMart speakers.

Key Features

- 50W Output Power
- Bluetooth 5.3
- USB-C Charging
- Splash Resistant

- Up to 18 Hours Battery Life
- Stereo Pairing

Warranty

12-Month Limited Warranty.

Computer Accessories

TechMart accessories are designed to maximize productivity while maintaining compatibility with TechMart laptops, tablets, and smartphones.

Available accessories include:

- 65W Fast Charger
- 100W GaN Charger
- USB-C Dock
- Wireless Mouse
- Mechanical Keyboard K1
- Laptop Sleeve
- USB-C Charging Cable

Each accessory is manufactured according to TechMart quality standards and is recommended for optimal compatibility with supported devices.

Warranty periods range from six to twelve months depending on the product category.

Smart Home Products

TechMart Smart Home devices simplify home automation while maintaining strong security and reliable wireless connectivity.

SmartCam S2

The SmartCam S2 is a Wi-Fi-enabled indoor security camera offering Full HD video recording, motion detection, night vision, two-way audio communication, and cloud storage compatibility.

Standard Warranty: 24 Months.

Home Hub

The Home Hub acts as the central controller for compatible TechMart smart devices. Customers can automate lighting, security, scheduling, and appliance control using the TechMart Home application.

Standard Warranty: 24 Months.

Smart Plug

The Smart Plug enables users to remotely control electrical appliances through the TechMart Home application or compatible voice assistants.

Features include scheduling, energy monitoring, automation routines, and remote operation.

Standard Warranty: 12 Months.

Warranty Summary

The following table summarizes the standard warranty coverage provided with TechMart products.

Product Category	Standard Warranty
Laptops	24–36 Months
Smartphones	12 Months
Tablets	12 Months
Smartwatches	12 Months
Audio Products	12 Months
Smart Home Devices	12–24 Months
Accessories	6–12 Months

Warranty coverage begins on the original date of purchase as indicated on the customer's valid sales invoice or receipt. Customers are encouraged to retain proof of purchase and register eligible products through the TechMart customer portal to simplify future warranty claims and support requests.

Product Care Guidelines

To maximize product performance and lifespan, customers should follow these general recommendations:

- Keep devices clean using a soft, dry microfiber cloth.

- Avoid exposure to liquids, excessive humidity, direct sunlight, and extreme temperatures.
- Use only genuine TechMart chargers and approved accessories.
- Install software, firmware, and security updates promptly.
- Back up important data regularly to external storage or cloud services.
- Do not attempt unauthorized repairs or hardware modifications, as these may void applicable warranty coverage.
- Store devices in protective cases during transportation to reduce the risk of accidental damage.

Following these practices helps maintain optimal performance and may reduce the likelihood of service interruptions.

Customer Support

TechMart Electronics provides customer support through multiple channels to assist with product information, troubleshooting, warranty claims, repairs, and general inquiries.

Support Services

- Product Information
- Technical Troubleshooting
- Warranty Claims
- Repair Status Updates
- Software Update Assistance
- Product Registration
- Replacement Part Requests

Frequently Asked Questions

Q. Where can I purchase genuine TechMart products?

TechMart products are available through authorized retailers, official online marketplaces, and the TechMart online store.

Q. Can I purchase spare parts?

Yes. Replacement batteries, chargers, adapters, and selected components are available through authorized TechMart service centers, subject to product availability.

Q. How do I register my product?

Customers can register eligible products using the TechMart customer portal by providing the product serial number and proof of purchase.

Q. Does TechMart provide software updates?

Yes. Eligible devices receive periodic software, firmware, and security updates to improve performance, compatibility, and security.

Q. Are extended warranty plans available?

Extended warranty plans are offered for selected laptops and smartphones and must generally be purchased within the eligible registration period after the original purchase.

Conclusion

This Product Catalog serves as the official reference for all TechMart Electronics products currently available to customers. The information contained in this document is intended to help customers understand the features, intended use, warranty coverage, and support options associated with each product category.

The catalog should be read alongside other TechMart documentation, including the Warranty Policy, Shipping Policy, Returns and Refund Policy, Product Registration Guide, Extended Warranty Guide, and Customer Support Handbook. Together, these documents provide a comprehensive knowledge base that enables customers to make informed purchasing decisions and receive consistent support throughout the product lifecycle.
